

Multiboard® EcoKraft

For chilled and frozen food in
strong packaging solutions

SUSTAINABLE STRENGTH

Multiboard® EcoKraft

For chilled and frozen food in strong packaging solutions

Multiboard® EcoKraft is an extra-strong board specially developed for chilled and frozen food. It is effective, with good printability and high performance on both printing and packaging lines and fully adhesive with moisture resistance in the board's cross-section. The fact that Multiboard® EcoKraft is manufactured from 100 % recycled fibre provides clear environmental benefits, in line with today's demands for a sustainable society.

- **Strong Nordic fibres** make Multiboard® EcoKraft one of the market's strongest board qualities based on recovered fibre. This means that it can often be selected with the same or lower grammage than other board qualities while still achieving the desired stackability.
- **Smooth runability through packaging machinery.** Multiboard® EcoKraft withstands powerful, repeated folding without splitting or wearing. The layer composition is delaminated in a well-defined line. This gives Multiboard® EcoKraft high performance on both printing and packaging lines.
- **Excellent stackability.** Multiboard® EcoKraft's multi-layer design and its fibre composition provide excellent stackability.
- **100 % recycled fibre.** The fact Multiboard® EcoKraft is manufactured from 100 % recycled fibre provides clear environmental benefits.

Multiboard® EcoKraft is available for the grammage 300, 325, 350, 375, 400, 425, 450, 475 and 500 gsm.

Multiboard® Kraft is suitable for frozen and chilled food.
